Reach out and feel the difference

The ultimate statement in quality and style, Victoria & Albert designs are produced from a unique QUARRYCAST® material made from finely ground volcanic limestone mixed with resin. As the stone-rich alternative to both cast iron and acrylic it is 100% one piece, hand finished and packed with naturally desirable properties.

- Warm:** High insulation properties
- Beautiful:** Naturally white with a gloss finish
- Lasting:** 25 year guarantee
- Renewable:** Easy clean solid surface – internal scratches simply polish out
- Strong:** Does not creak or flex
- Practical:** Drillable for customised tap location
- Unique:** Hand finished interior – exterior can be painted

Victoria & Albert Proves Good Design™ Credentials

British Brand, Victoria & Albert, continues to gain international recognition for its innovative bath and basin designs. Having just been awarded a 2010 GOOD DESIGN™ Award for the contemporary Napoli bath, Victoria & Albert have decided to showcase the model at the GOOD DESIGN SHOW in Chicago this forthcoming June.

Now in its 60th year, the GOOD DESIGN™ programme is orchestrated by The Chicago Athenaeum: Museum of Architecture and Design

alongside The European Centre for Architecture Art Design and Urban Studies. Founded in 1950 with the participation of early modernism's influential designers, the programme remains one of the world's most recognised schemes for design excellence.

Victoria & Albert's Napoli was selected from over 500 products to be awarded the annually bestowed GOOD DESIGN™ Award on 31st December 2010. Fusing cutting-edge organic form with the unique naturally white, limestone-rich volcanic material QUARRYCAST®, the Napoli has been widely celebrated by the design community since its launch, with its egg-inspired silhouette proving to be an instant design classic.

Marketing Manager Jonathan Carter comments: "We are thrilled to have been awarded such a prestigious international gong for one of our baths. The Napoli is a very popular model, combining stunning statement design with the highest levels of comfort."

An island of tranquillity, the new iOS is a contemporary dual ended freestanding bath tub offering big bath luxury in an amazingly compact 1500mm-long package.

Victoria & Albert Launch New QUARRYCAST® Basin

Victoria + Albert Baths is excited to announce the launch of the iOS 54 basin. Beautifully proportioned, with a compact footprint of 540 mm long, this latest addition to the volcanic limestone-rich QUARRYCAST® ios collection displays the stylish clean lines and timeless design that has made the range so popular.

The iOS collection – also including the freestanding ios bath and ios 80 basin – now offers a solution for every bathroom. Versatile and minimalistic, each design displays an organic beauty thanks to elegant oval lines and the natural white finish of QUARRYCAST®.

City dwellers and country folk alike will be attracted to the neat form of the iOS 54, and with a height of 125 mm, the basin is deep enough to be used for everyday requirements. Whether you are looking to create a striking focal point in a cloakroom or bathroom, the iOS 54 can be installed as a stand-alone piece, however it also looks great placed side by side on a standard 1.5 m long vanity unit to embrace the recent trend for 'his-and-hers' configurations.

Victoria & Albert Baths' Marketing Manager Jonathan Carter comments: 'The iOS 54 is the latest addition to the space-saving ios collection. The basin's size makes it highly versatile, allowing customers the chance to make the most of restricted space without compromising on design. Thanks to the strength, practicality and natural white finish of QUARRYCAST[®], the iOS 54 will be a preferred choice.'
