### Modern with a twist!

Introducing the Cera Luna kitchen faucet, designed and manufactured in Germany by Ideal Standard. Standing tall in durable chrome, the Cera Luna faucet balances strong geometric elements with softer, natural curves. Featuring a spout that pulls out to double as a spray, its reach and versatility make it ideal for washing and filling large items vessels – it can reach anywhere you need it to. It also features a handy rubber grip that improves usability, adds a warm texture, and helps to prevent lime scale. And if that wasn't enough, the Cera Luna faucet's narrow looped multi-handle gives you total control, even with a single finger or an elbow.

## ZUCCHETTI.

### Designed with delicacy

Designed and manufactured in Italy, the Pan kitchen mixer is an interpretation of the spare, cylindrical type of single lever mixer, which uses classical archetypes to develop aesthetics and new, completely original styles. The focus is on connecting the vertical and horizontal elements. As in nature there are no cuts and welds, so the body of the faucet, designed like the trunk of a tree, creates the spout and the handle, using a gentle connection that is designed with exactly the same delicacy one would use in grafting a branch to a tree trunk.

## ELEMENTI

### Traditional charm

A step back in history without giving up the advanced technology of today.

Coloniale offers elegant design that expresses the rigour and charm of traditional bathroom tapware.
